[Nonresponsive based on revised scope]

[Redacted] informed me that he will be switching out with a new ET starting next week. The new team member is approved to pick up equipment at the EPA COOP on Tuesday and be on Site with [Redacted] through Friday, demobing on Saturday.

[Redacted] has already asked to work from 7/6 through 7/22, demobing on 7/23. This is approved.

After next week, one START member on Site will be sufficient to meet EPA’s needs until the engineering work. The TD will need to be amended for this work, which is tentatively estimated to take place 7/22-7/30. This work will be weather dependent. ERRS will only be permitted to excavate during good weather to avoid water collection in the drum pit.

I understand I am responsible for amending the TD and will try to get the amendment to [Redacted] by Friday.

In summary, 2 STARTs for next week, and then only 1 until engineering work.

Please contact me with any questions  
Thank you  
Chris
